

SINN FEIN STANDS ON IRELAND AS FREE STATE

**De Valera's Reply Is
Known To Contain
This Demand**

**ONLY BASIS FOR
FURTHER CONFAB**

Dublin, Ireland, Sept. 15.—Ireland will negotiate only as a free state. The reply of Pres. De Valera to the invitation of Lloyd George to a conference, which was issued here today, contains this definite statement. The prime minister had insisted that Ireland remain a part of the British Empire, and must be accepted by Sinn Fein before the conference could take place.

Irish Issue Flat Statement.

De Valera's note pointed out that Ireland already has declared her independence. It was stated the Sinn Fein have no objection to discussing negotiations with the British Empire but that Ireland would negotiate as a free state.

Up to 5 o'clock this evening the text of the Irish reply was not forthcoming from No. 10 Downing street. Officials refused to give out the contents of De Valera's letter or comment on it.

RAIL STRIKE DANGER NOW INCREASING

Cleveland, Ohio, Sept. 15.—The danger of a railroad strike is being brought nearer by the refusal of railroad executives to abide by "the few rulings of the rail labor board that are favorable to workers" rail union leaders charged here today.

"All the railroads and particularly the Pennsylvania, have been unwilling to carry out any of the rulings benefitting the men," James Sause, of Fort Wayne, Ind., representing the American Federation of Labor declared today.

Railroaders will discuss the strike issue Sunday at meetings called in Cleveland, Chicago, and 18 other rail centers throughout the country. Sentiments expressed at this meeting will, it is believed, largely determine whether or not a strike will be declared.

Dry Force Inadequate To Cope With Prohibition Law Evaders

**Internal Revenue
Com. Blair Says
Public Sentiment
Is Lacking Now**

Washington, D. C., Sept. 15.—The present prohibition enforcement force numbering 2600 men and women is totally inadequate, Commissioner of Internal Revenue Blair said today. The enforcement force will always be inadequate, no matter to what extent it may be increased, until prohibition is fully supported by public sentiment, he declared.

One of the weakest features of the present situation is the inability of the prohibition force to stop smuggling of liquor. The present prohibition agents have neither the training nor the facilities to meet the coast runners, Blair said.

Open Shop Is Adopted By Four Big Packing Concerns

Chicago, Ill., Sept. 15.—The "open shop" was established today by four of the nation's largest packing industries. Officials of the Butchers International Union were notified that in the future only employees and not union officials would be dealt with.

The agreement under which Federal Judge Samuel Alschuler arbitrated the disputes between the packers and union officials expired today and in its place the "American Shop Representation Plan" was established.

Employees Voted For Plan.
The packers announced today that

more than 90 per cent. of their 75,000 employees voted in favor of the plan. The larger concerns have formed their employees into organizations, representatives of which deal with company officials in the matter of wage scales and working conditions. The packing companies involved are: Armour & Co., Swift & Co., Wilson & Co., and the Vudahy Packing Co.

Union Official Comments.
Washington, D. C., Sept. 15.—The big packers will follow up their so-called adoption of the American Shop Plan with wage reductions, despite present agreements, Secretary Morrison, of the American Federation of Labor said today.

HUNDREDS ARE HOMELESS AS FIRE RAGES

Rockaway Beach Bungalow Section Is Destroyed

Rockaway Beach, N. Y., Sept. 15.—Hundreds of persons were rendered homeless when fire swept part of the bungalow section of Rockaway Beach early today. Several small summer hotels were destroyed.

One body has been recovered from the ruins and two men are said to be missing. Many concessionary stands and bungalows were burned. The loss is estimated at more than one million dollars.

LAWRENCE TWSHP. MAN DRAWS HEAVY PRISON SENTENCE

Walter Brickley, a 19 year old I vrence township young man, will spend the next fourteen years of his life in the Western penitentiary as the result of a sentence imposed upon him by Judge Bell in a brief session of criminal court. Brickley entered a plea of guilty to a crime against a little 10 year old child and was given the limit of the law, which he justly deserved.

BANDITS KILLED IN TRAIN HOLD UP ATTEMPT

**Road Officials Tipped
Off And Lay
Guard Barrage**

Fort Worth, Texas, Sept. 15.—Robbery of Texas & Pacific train No. 11 near here early this morning was frustrated when two of a bandit gang of four were shot and killed. They were "Bill" Edwards, former engineer on the road, and a man known as "Indian Charlie."

Edwards brains of Gang According to police Edwards was the brains of the gang. "Indian" Charlie boarded the train at Fort Worth and a few miles from the city entered the mail car and held up the mail clerk. He threw three pouches of mail from the train. Police and federal officers, who entered the car, shot him, as he was bending over a seat.

In the meantime Edwards picked up the three pouches and attempted to escape. He was shot down by other members of the posse who lay in wait. The other two members of the bandit gang escaped. They had been waiting in an automobile but abandoned the car.

Road officials had been tipped off regarding the plot to rob the train and placed a heavy guard of railway and federal operatives on the train.

TEN MEN DIE IN PHILADELPHIA OIL PLANT FIRE

**Caught In Flood Of
Burning Oil And
Die In Trap**

Philadelphia, Sept. 15.—Ten men were burned to death yesterday afternoon, and twenty-eight others were injured, seven seriously, when a high pressure naphtha still exploded at the north yard of the Atlantic Refining Company, Thirty-second street and Passayunk avenue. All were employed at the plant.

The victims were caught in a flood of burning oil. Several jumped from the top of a still to the ground, a distance of seventy-five feet but their leap was into a sea of burning oil.

Feats of heroism on the part of the employees and firemen and four priests, who made their way through the flames and dragged out four bodies, marked the fire, which followed the explosion. Firemen and employees worked three hours to get one body from the top of the burning still, and finally it was lowered to the ground.

Burmese Courtship.
Courtship in Burma is a more open and natural flirtation than it is in almost any other part of the East. The young man usually manifests his interest at one of the pagoda feasts by sitting at one of the tables with a young lady with a view of her friends is awaiting him. He means business, however, and if the families consent he persuades her to eat a meal with him in public, and by virtue of this procedure his bachelorhood is brought to an abrupt end.

PASSERS-BY FIND BOMB—SAVE HOME

Appollo, Pa., Sept. 15.—Following the receipt of two Black Hand letters demanding \$3000, a bomb was placed on the porch of the home of James Maccegagno, here early this morning. Passers-by discovered the lighted bomb and threw it over into the railroad yards where it exploded. No persons were injured.

Sheriff Whips Wife Beater

The whipping post, side for nine years, has been restored to action at Baltimore. Sheriff Thomas F. McNulty is shown giving five lashes with a "cat-o-nine-tails" to Cornelius Smith who beat his wife with a rolling pin. Smith is also serving two months.

Movie Comedian May Be Released From Jail on Bond

**District Attorney Has
Virtually Decided To
Press Lesser Charge**

By M. C. TRACY.
(United Press Correspondent.)
San Francisco, Cal., Sept. 15.—Roscoe Arbuckle, charged with causing the death of Virginia Rappe, will probably be at liberty before night-fall. District Attorney Brady has virtually decided to prosecute Arbuckle on a charge of manslaughter rather than murder. This offense is bailable and Arbuckle's attorneys are ready to supply \$15,000 bail today.

If accepted Arbuckle will start for Los Angeles at once where he will go into seclusion.

Decision Influenced By Verdicts.
District Attorney Brady's virtual decision to prosecute the comedian on a manslaughter charge was mainly influenced by the fact both the coroner's jury and the grand jury brought indictments for that crime, refusing to accuse Arbuckle of murder. The grand jury indictment is to be presented to Judge Shortell today. If Brady dismisses the murder charge Arbuckle's lawyers will ask for bail immediately.

May Bring In Many Witnesses.
The names of many well known movie actors and actresses may likely be brought into the case when Arbuckle goes on trial charged with assaulting and fatally injuring Mrs. Rappe in a liquor orgy in his room at the St. Francis hotel on Labor Day.

They will be called both by the prosecution and the defense to testify to the previous character of Arbuckle. They will also bring into court testimony regarding "wild parties" of the "fast" set in the Los Angeles movie colony in which Arbuckle is alleged to have participated. A complete exposure of high life there is expected.

PRESIDENTIAL PARTY LEAVES NEW YORK CITY

New York, N. Y., Sept. 15.—President Harding and his party left for West Point today on the Presidential yacht Mayflower.

George Christian, secretary to President Harding, who broke a rib in a fall, was to return to Washington by train today. Christian's injuries are not serious.

Attorney General Daugherty who is on the Mayflower, is suffering from a slight cold and a mild attack of ptomaine poisoning.

NEW YORK STOCKS

New York, Sept. 15.—American Locomotive 92; American Sumatra Tobacco, 43 1-4; Baltimore & Ohio, 38 3-4; Baltimore & Ohio Pref., 51; General Electric 127; General Motors 10; Midvale Steel, 25 3-4; Oklahoma Producers, 1 7-8; Sinclair Oil, 20 5-8; U. S. Steel, 89 1-4; U. S. Steel Preferred, 190 3-8; Willys Overland 6.

Liberty 3 1-2's \$87.90; Liberty 1st 4 1-4's \$88.60; Liberty 2nd 4 1-4's \$92.46; Liberty 4th 4 1-4's \$88.70.

MINE TIPPLE FIRE THOUGHT TO BE INCENDIARY

**Boardman Mine Tipple
Destroyed With A
\$2,000 Loss**

**STATE OFFICIALS
TO INVESTIGATE**

The tipple at No. 3 mine of Fred B. Kerr at Boardman was totally destroyed by fire which was discovered about 5 o'clock this morning. The tipple was a frame structure and burned rapidly. The fire had such headway when discovered that nothing could be done with the meagre fire fighting forces at hand, to prevent its total destruction of the building. The loss will amount to possibly \$2000.

The fire was of undoubted incendiary origin, as there had not been any fire in or about the tipple for some time. A determined effort will be made to run down the perpetrator of the outrage and in addition to the county authorities the State Fire Marshal's department has been notified and a trained investigator is already on his way to Boardman in the hope of being able to run down the alleged fire bug.

No expense will be spared in the hunt for the man or men who applied the match to the tipple and all good people will rejoice when the villain is run to earth, as he most undoubtedly will be.

TIMBER FIRE CASE DECIDED IN FAVOR OF PLAINTIFF

**Auto Crash Suit Next
Case On The Civil
Court Docket**

The case of Stafford Bros. vs. the New York Central Railroad Company for damages to timber land as the result of a fire on their property in Lawrence township, alleged to have been caused by sparks from a locomotive of the defendant company, and which had been on trial before Judge Bell in civil court the past couple of days, was completed this morning at 10 o'clock, the jury retiring at that time to take up their deliberation. Following Judge Bell's length charge.

The jury deliberated over the case for two and one-half hours, finally agreeing on a verdict at 12:30 o'clock. When court reconvened after the noon recess the verdict of the jury allowing the plaintiffs \$820 for their burned timber was returned.

The case was prosecuted by Chase & Chase, while O'Loughlin, Fenerty & Kelley conducted the railroad company's defense.

Auto Crash Case Next.

The case of the Oppenheim Cigar Co. against Ed A. Cairns, of DuBois, was then called for trial. This grows out of a collision between the automobiles owned by the parties. The Oppenheim Co. is a Johnstown concern and on April 11, 1921, while one of their representatives was driving their car on the streets of DuBois a collision with Mr. Cairns and his car occurred. The cigar people allege Cairns was to blame and he blames them. So in a case of this kind there is but one solution, the lawyers get both cars, in the end.

The suit is brought to recover \$1,000 for damages and depreciation of the car. The plaintiff is represented by Pentz & Pentz, while J. A. Gleason is looking after the defense.

Reading in Bed.

One may read in bed without excessive eye-strain if care is taken to have good light and to sit up so that you look down at the print. Reading in a prone position is usually tiresome because we look up at the type. The eyes are used so much to look at objects held below its level that the muscles which turn the eyes up have become weak from lack of use and become, therefore, easily tired. — Popular Science Monthly.

FIRE DESTROYS FRANK LOBB HOME WEDNESDAY NIGHT

Origin Of Blaze Unknown. Loss Is Estimated At About \$2,000.00

The two-story frame dwelling house belonging to and occupied by Frank Lobb, located on the old John Smith place back of Hillsdale, caught fire from an unknown source last evening about 9 o'clock and was burned to the ground.

The location of the house precluded the possibility of help from the local fire department but a bunch of the members of Co. No. 1 drove their hose wagon to the scene. They were powerless for lack of water to do anything toward extinguishing the flames.

Mr. and Mrs. Lobb, with the assistance of their neighbors succeeded in saving some household goods and other personal property, but their loss will amount to a couple of thousand dollars.

Open Season Tomorrow For Straw Hats No License Needed

Today is the last day for straw hats, and any straw hat appearing on the streets of Clearfield is legal game after today.

Keep your eye peeled and when your neighbor comes jauntily down the street under a straw hat, bean him, kid, bean him, but be careful too, that you don't get your nose skinned when you do. Some late straw hat wearers can't take a joke. Try it out on him anyhow. No hunter's license is necessary. Dame Fashion wills it so.

DID YOU PAY YOURS?

Washington, D. C., Sept. 15.—Taxpayers today began handing \$535,000,000 to the government another installment of income and profits taxes. Secretary Mellon is counting on today's payments to pull the Treasury out of the hole. For the past two months it has shown a current deficit of \$116,000,000.

One of Secretary Mellon's first acts today was to arrange to refund \$535,000,000 in Treasury certificates of indebtedness. He then set aside \$345,000,000 for payment of the semi annual interest on the Third Liberty Loan.

Meanwhile the new tax bill is almost ready to turn over to the experts who will draft it into exact form, in which it will be reported to the Senate next week by the Finance Committee.

STATE ROAD FROM BIGLER TO BLUE BALL NOW OPEN

**State Highway Department
Throws Stretch
Of Concrete Open**

**WILL CELEBRATE
ROAD OPENING**

The Woodland-Blue Ball State road was finally opened for traffic between Bigler and Blue Ball today and travel overland between Clearfield and Philipsburg is now a real pleasure.

Messrs Warren Bros. the contractors, are entitled to commendation for the competent manner in which they handled this job. The work was less than two years building the seven miles of road and they have made a first class job of it.

The last stretch of concrete to be put down on this road was the two hundred feet located along the supply base or headwaters beyond Bigler and while this piece has not had the necessary twenty-one days curing period the Highway Department was able to induce the contractors to allow the same to be used with the remainder of the road. Motorists are asked to be as careful as possible in traveling over this short stretch and Warren Bros. are again to be congratulated upon their manifest desire to accommodate the public.

The new road was the mecca for hundreds of tourists all day today and everybody is delighted with the new road.

It is the intention of the people of this region to have a formal commemorial opening of the Clearfield-Blue Ball road at an early date, or just as soon as the Highway Department can get the new road smoothed up and put in perfect shape. Announcement of the time and nature of the affair will be made in due time.

BURGLARS BEAT HOUSEHOLDER TO DEATH

Philadelphia, Pa., Sept. 15.—John B. neu, aged 49, was beaten to death in his home here early this morning and his son, Peter, aged 14, may die as the result of a skull crushed, supposedly by burglars. Two men were seen loitering near the home all day yesterday. As far as could be learned nothing was stolen.

Good Actions Bring Rewards.
If in youth we build years of helpful, friendly, neighborly acts, we will offer to the world the fragrance of lovable personalities when we go down the western slope of life; a fragrance, too, that will linger after we have passed on to the great beyond.—Orie.

TOO MUCH KICK FATAL

New Orleans, La., Sept. 15.—Two are dead and two other persons were seriously burned as the result of the explosion of a whiskey still. Too much pressure in the copper tank of the still, said to have been in operation in the barn of John Tony, caused the explosion, according to police.

Tony died early today. Mrs. Tony and her 12 year old son were seriously burned and Anthony McCallan, 17, who went to the aid of the family, received burns which caused his death last night.

Violin Wood.

The value of a violin is in the sound-producing qualities of the wood used in making it. Wood consists of fibers which may be compared to strings either parallel or interlaced. The most of these of spruce are parallel, hence their fine musical qualities. Other woods have shorter fibers and they may not be arranged so that they can vibrate freely, one interfering with another.

THE WEATHER MAN SAYS:

"I GUESS I'LL
HAVE TO DUCK
THIS STRAW HAT
TODAY. ANYWAY,
IT MIGHT RAIN
TOMORROW."

Cambridge, Mass., Sept. 15. (United Press.)—Line problems are the only football troubles faced by Harvard as the Crimson gets ready for the biggest season of years.

Head Coach Bob Fisher is frank in saying that much of the success of the Crimson team depends on the development of good linemen to replace the heavy forwards graduated last year.

With Capt. Kane at end and Tolbert available, Fisher has the foundation for a good line, but the prospects are none too bright, as little is known of the other candidates.

The backfield will not occasion much worry, as Owen, Fitts and Buell are back. Owen and Fitts proved themselves last year and Buell gave great promise in the few times he had a chance to show.

The Harvard schedule is the most ambitious of years. The Crimson will have practically no loafing Saturdays between the opening double-header on Sept. 24 and the finale with Yale on Nov. 19.

Games with Indiana, Georgia, Penn State and Centre are features of the card. Harvard had a very successful season last year finishing with a clean slate in nine games. The 14-14 tie with Princeton was the closest thing of a defeat, while the 9-0 victory over Yale finished the season with a blaze of glory.

The 1921 schedule follows: Middlebury and Boston University, Sept. 24; Holy Cross, Oct. 1; Indiana, Oct. 8; Georgia, Oct. 15; Penn State, Oct. 22; Centre, Oct. 29; Princeton, Nov. 5; Brown, Nov. 12; Yale, Nov. 19, at New Haven.

Penn Has Hopes

Philadelphia, Sept. 15. (United Press.)—"What will Penn do under her second year of Heisman's rule?" is causing speculation on the Pennsylvania campus.

If any kind of luck is experienced in the development of the new material, Penn ought to have a successful season, as the schedule, the easiest in years, seems to have been drawn for that purpose.

Drastic changes were made in the coaching personnel. Heisman still remains as the chief, but "Buck" Wharton, line coach since 1898, has been dropped, Gus Wigler taking his place. The backfield coaches are Hollenbeck and Bell with Lavine in charge of the ends.

As a foundation for the team, Heisman has left from last year, Capt. Wray, Day, Frank, Caldwell, Thurman, Denham, Cochrane, Graves, Whitell and Farrell. Thirty substitutes from the 1920 squad are also available.

The schedule: Delaware, Sept. 24; Franklin and Marshall, Oct. 1; Gettysburg, Oct. 8; Swarthmore, Oct. 15; Virginia Military Institute, Oct. 22; Pittsburgh, Oct. 29; Lafayette, Nov. 5; Dartmouth, Nov. 12; Cornell, Nov. 24.

Maudie on Papa. Maudie's papa is night editor on a newspaper, a fact which Maudie apparently hasn't learned; for when someone asked her a few days ago what her father did for a living, she replied: "I div it up. I fluk he's a burger, 'cause he's out all night."

CARD PROMISES WORLD OF ACTION

The Columbia Athletic Club are putting on a crackerjack boxing show at their hall in DuBois tomorrow evening. The card consists of four separate events, totalling thirty rounds of good fast boxing.

The entire lot of performers are light or middleweights which ensures lots of action.

The main go will be a 10-round bout between "Chaiky" Wimber of Pittsburgh and K. O. Johnny of Jamestown, New York.

Kid Feeley of Johnsonburg and Bill Marks of DuBois will go six rounds, while Kid Olson and Choo Choo Wallack, both of DuBois, will mix it for four rounds.

"Yankee Shoots," the DuBois "pile driver," who cleaned up every Clearfield entry put against him is scheduled to meet Clifford Becker, of Celoron, N. Y. The latter is said to be some battler and the long looked for "sleep potion" for the Donegal Hill knockout artist is looked for in this bout.

- Little Rock won the Southern Association pennant.
- Bagby let the Athletics down with three hits and Cleveland won.

Did he or she live here once? Tell The Progress and we'll tell 'em. H. & C.

New Haven, Conn., Sept. 15. (United Press.)—Yale has hopes this fall to erase the painful memory of the 1920 football season when the Elis fell down before Boston College, Princeton and Harvard.

Tad Jones, who left his business interests in Seattle last year in the attempt to bring Yale out of the rut, is back again in charge of the squad. He has been devoting his attention to the gridiron since the close of last season when his team was mauled by Harvard.

Yale says openly, that too much is not expected of the team this year, that Jones is laying the foundation of a system that may not begin to show results for another year or two.

Prospects are none too bright for a championship team or for one that will defeat Princeton or Harvard, as both rivals in the "Big Three" have a much brighter outlook.

If Jones is able to fill Captain Callahan's place on the line and discover some good material, the Blue ought to have a fairly successful season, as the schedule is none too hard.

The game with the Military Academy, which will mark the first trip of Yale Cadets away from the Plains for a game other than the Navy, is the midseason feature of the schedule which includes:

- Bates, Sept. 24; Vermont, Oct. 1; North Carolina, Oct. 8; Williams, Oct. 15; Army, Oct. 22; Brown, Oct. 29; Maryland, Nov. 5; Princeton, Nov. 12; Harvard, Nov. 19.

Woman Fight Promoter In St. Louis Tonight

St. Louis, Sept. 15. (United Press.)—Sportdom, meet Mrs. J. M. Hutchinson, St. Louis's first woman fight promoter!

Tonight she will be in direct charge of the bout between Hugh Walker and Bill Brennan at the Coliseum. She raised a guarantee fund for the "go" and induced noted and professional business men of the city to sponsor the battles. The proceeds of the fight will go toward creating an emergency fund for disabled veterans of the world war.

Ash Best Material for Bats.

In making baseball bats no substitute for wood has been found, says the American Forestry Magazine. Ash has won the leading place. Several qualities must be considered in selecting wood for bats, but the most essential are weight and strength. The shock and strain are severe at the moment of impact when the well-timed blow meets the flying ball in midair and almost instantly stops it and sends it in the opposite direction. If the wood is not excellent the blow shatters it.

The Curwensville High School has gone into an athletic organization for the fall athletics and the spring sports. Every member of the high school has joined the association which augurs well for a successful year in athletics. Those who are taking active part on the field are doing it with the consent of the faculty, each realizing that his school work is first.

The ladies of the school entered into the organization with as much enthusiasm as the young men. They were told that they would play an important part in giving enthusiasm and in showing their school pride. But the members of the faculty think the girls should be taken care of also by some provision for out door sports and later on indoor sports. The call has gone out for a hall, for a place large enough to exercise in and to play basket ball when the weather stops the out door sports. The association is wanting some one to come forward with a good suggestion.

At the last report over \$40.00 in dues have been paid into the treasury; each member paying 50 cents by vote of the association and as much more as he wants to pay.

The officials of the association are as follows: Grant Norris, president; George Wrigley, vice president; Cora Wolfe, secretary; George E. Croyle, treasurer; F. A. Zeller, manager; Byron McDowell, assistant manager; Marjorie Wall, assistant manager; Arthur Hockman, captain; Lucinda Clark, captain.

At a meeting held Wednesday afternoon it was decided to send out a letter by every pupil of the schools asking for a small contribution. If a festival were held the association would not get more than about 50 per cent of the money spent, but in this way the association will receive every cent intended for it. The fans of Curwensville are asked to look forward with pleasure to these letters and the response.

The association has already received clothes from the American Legion at a reduced price; \$200.00 is needed now.

Mr. Norris has arranged with the Boyd-Brockway Lyceum Bureau for a Lyceum course of five numbers during the winter months. Complete announcements of this course will be made in a few days.

Representatives of the Daughters of the American Revolution will visit the schools on Friday of this week and emphasize the great lessons of the Constitution of the United States.

Clock Watchers Are Slackers.

At a recent convention of employers one of them made the statement that the efficiency of his employees had been increased 300 per cent by the removal of all clocks from the plant. There are many employees who pay more attention to the clock than to their own work.

love the outdoor life and he is remembered by his book, "The Complete Angler, or Contemplative Man's Recreation." Although angling, or fishing is the subject, the writer goes beyond it, and gives expression to many fine thoughts respecting streams and fields and flowers. It is the work of a kind and gentle soul alive to the beauties of nature.

No Weather Really "Bad."

It was a wise man who contended that there is no such thing as bad weather—there are only different kinds of good weather. The hot days and the stormy days, the rains, the winds, the snows all have their purpose, and it is always a good purpose.—Exchange.

English, American, British and some of the greatest of English writers, started life as a sailor, was evidenced in his bearing even late in life. Jerrold's father was the manager of a theater, but it was the sea that first hired the boy. Yet it is interesting that when Jerrold was only fifteen years old he wrote a comedy which later was produced and started him on his stage career, says the Pittsburgh Chronicle-Telegraph.

Seed's Remarkable Vitality.

The longest known survival of any seed is that of a certain Egyptian mummy. A dried seed pod kept in the South Kensington museum, England, contained seed which was tested and found to grow after 85 years.

Good, Old, Reliable Peterson's Ointment is a **Patented** Preparation.
"Had 51 ulcers on my leg. Doctors wanted to cut off leg. Peterson's Ointment cured me."—Wm. J. Nichols, 40 Wilder street, Rochester, N. Y.
Get a large box for 60 cents at any druggist, says Peterson, of Buffalo, N. Y., and money back if it isn't the best you ever used. Always keep Peterson's Ointment in the house. Fine for burns, scalds, bruises, sunburn and the surest remedy for itching eczema and piles the world has ever known.

FORD OWNERS

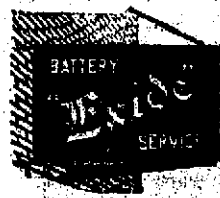

Keep your Starting & lighting system working just as dependable as your car by using **Exide** Starting & lighting Battery Service

IT is the service—prompt, efficient, dependable. In all likelihood your car is equipped with an "Exide" Battery. But "Exide" Service is broad and comprehensive.

It can meet every need of your starting and lighting battery, no matter what its make.

Our free battery testing and rewatering service will go a long way toward keeping your battery sound and healthy. Take advantage of it.

SECOND HAND CAR DEPARTMENT

Looks Like A Victrola Heats Like A Furnace

It's the final solution to the heating problem for small homes—with or without basement. Heats from three to six rooms as easily as an expensive hot water system. Has a beautiful graind mahogany finish as hard and smooth as glass. You simply rub it with a cloth to clean.

CLEARFIELD HARDWARE CO.

Market Street Clearfield, Pa.

Money-Back Shot-Shells

Get your money back if you are not satisfied. That's the basis on which we are offering to sell The Black Shells to all sportsmen.

Shoot a trial box of shells—in the field or at the traps. If you don't like them, bring back the unused part of the box, and we will refund to you instantly, in cash, without any question, the price of the entire box.

US BLACK SHELLS

Smokeless and Black Powder

Have you ever had or heard of a fairer offer than this money-back guarantee? Get a trial box of The Black Shells. You won't bring them back.

UNITED STATES CARTRIDGE COMPANY, New York, Manufacturers

Clearfield Hardware Co.

WHOLESALE DISTRIBUTORS, CLEARFIELD, PA.

We guarantee the **US CARTRIDGES** just as we guarantee The Black Shells. We know these cartridges are right. They have won more official tests than all other makes combined. We particularly recommend the U. S. 22 N. R. A. Long Rifle Lesmok Cartridge. It is unequalled at any distance from 30 to 250 yards, and costs no more than others.

COBBS AND ENDS AND THINGS

"By Skinner"

We never did like to figure or talk figures, but since those "finger" sharks are doing so much of it down at Washington, I forgive us a moment while we offer the following to show how the cost of government advances with the passing years.

The total expenditures of the United States Government for the year preceding the entrance of this country into the war were \$1,072,894,000. The estimated expenditures of the United States Government for next year are \$4,800,000,000. That is the basis on which the Secretary of the Treasury prepared his revenue program. What the Government is spending this year will not be known until the final deficiency appropriations are made, but on the Mellon estimates for next year the Harding Administration will be spending \$3,500,000,000 more than the Wilson administration spent in the year preceding the war.

The United Spanish American War Veterans at their annual convention in Minneapolis are taking a fall out of present day United States history, alleging that she contains "British propaganda," as now written. A resolution was presented which stated that this fact was evident in revised editions of a history now being used in the public schools.

The report stated that the book omits historical facts, such as the Boston tea party, battles of Lexington and Bunker Hill; eulogizes Benedict Arnold and sacrifices historical facts in favor of international relations between the United States and Great Britain.

When one visits some of the surrounding county fairs and sees the kind of shows the management is handing out to their patrons, he is bound to come home impressed with the idea that the Clearfield County Fair Association can give their neighboring competitors cards and spades and beat them a mile, when it comes right down to real fairs, while the Clearfield fair grounds are far and away the prettiest and most inviting exhibition grounds to be found anywhere in the central part of the State.

Don't get worried, there are a whole lot of us going to remain hard at work. Then, too, those who are disturbed over the 5,735,000 unemployed to today overlook that in 1914 there were 7,000,000 out of work, a larger percentage of whom were men and actual bread-winners than in the present unemployment according to Secretary of Labor Davis. He says:

"While we have our unemployed, let us not forget the 12,000,000 who are still at work. A further encouraging fact is that \$500,000,000 is now available about the country in the form of bonds already issued or appropriated by the state, county and municipal governments for public works."

A Texas doctor who recently died and left an estate valued at \$50,000, was evidently not in partnership with the undertaker, as some people used to blame the poor medico with being because he provided in his will that his coffin should not cost more than \$25 and further that his remains be carried to the cemetery for burial on a truck.

There are 1900 unidentified United States soldiers in France, according to the latest statement credited to the U. S. Graves Registration Service.

WEST SIDE SUNDAY SCHOOL CLASS ENTERTAINED

Mrs. McFarland and Mrs. Shiffer entertained Class No. 10 of West Side Methodist Sunday school at the home of Mrs. McFarland on Merrill street.

MISS BELL HOSTESS TO S. S. CLASS

Miss Myra Bell entertained her Sunday school class at her home on Fulton street.

Celebrate Their 17th Wedding Anniversary

Mr. and Mrs. Samuel Baroni celebrated their 17th wedding anniversary at their home on Third street evening. A large number of their friends assisted them in the celebration and a very pleasant evening was the result.

REMEMBER FIRST 20TH CENTURY LIMITED EXPRESS

Lansing, Mich., Sept. 15. (United Press.)—The tour of the Dewitt Clinton (N. Y. C.) train through Michigan brought to light that this state can claim first honors in the matter of having among its residents first passengers of the old pioneer of the twentieth century limited.

Mrs. Maryanne Mann, 90, Grand Rapids, claims to be the only living woman who rode on the train during its period of operation. She was enthusiastic in describing her experiences when the train visited her locality, claiming it was "unsafe" for children.

Despite her assertion, John T. Berner, 96, Marshall, claimed to be the only living person who made the initial trip with the train, says he found riding comfortable at the age of 6, when his father, the conductor of the train, took him on the first journey. Berner was wheeled to the station at Marshall to view the old Dewitt Clinton on her exhibition trip through the state.

"Backwardation." This peculiar word is a term used on the London stock exchange. A man sells stock which he does not possess, promising delivery on a certain day. If at settling time the stock has not gone down to a point where he can make a profit on the transaction, he sometimes makes an arrangement with the purchaser of the stock whereby delivery is deferred, paying for this privilege an agreed amount of interest known as backwardation.

WHIST CLUB MEETS THURSDAY

Mrs. Pascalene Tomner entertained the Duplicate Whist Club yesterday afternoon at her home on Locust street. Four tables were in play.

ENTERTAINS SUNDAY SCHOOL CLASS

Miss Josephine Hall of Guelich avenue entertained last night for her Sunday school class of little girls. The party was held in the basement of the West Side M. E. church and Rev. and Mrs. Shively were guests.

Helpful Rubber Bands. Small elastic rubbers like those used around rolls of paper in offices are more convenient for placing around rolls of patches or cloth left over from making a garment than using pins or strings for tying around them and presents a neater appearance in storing away. Catalogs, magazines, bunches of papers may be rolled with a rubber band and stored in smaller space.

STOCK JUDGING CONTEST WILL BE HELD FAIR WEEK

The fifth annual Livestock Judging Contest for boys and girls will be held during Fair week, Wednesday September 28th, under the auspices of the Clearfield County Agricultural Society. This contest is open to all boys and girls of Clearfield County between the ages of eight and twenty years. The classes of livestock to be judged will consist of draft horses, dairy cattle, and swine. The instructions and grading of the papers will be in charge of W. B. Connell, of State College. Contestants will be admitted free to the grounds on this day. The judging will begin at 9:00 a. m., and should not continue later than 12:30 p. m. Lunch will be furnished free to all contestants.

Prizes Offered. The following is a list of the prizes that will be given to the winners: Gold medals, silver medals, bronze medals, Wolf's Productive Feeding of Farm Animals, Gay's The Breed of Livestock, Johnstone's The Horse Book, Kleinhans's Sheep Management, Putney and Larson's Dairy Cattle and Milk Production, Plumb's Judging Livestock, Lovejoy's Forty Years Practical Experience with Hogs, Gardner's Successful Farming, Agee's Crops and Methods of Soil Improvement; subscriptions to The National Stockman and Farmer, The Pennsylvania Farmer, The Breeder's Gazette. Winning Team Goes To State College. A team composed of the three boys, or girls receiving the highest score in

Street crowds in Belfast, Ireland, fleeing from the bullets, during the recent rioting which broke out between Sinn Feiners and Unionists, despite the Irish truce. Fifteen were killed and scores wounded.

This contest will be eligible to compete with teams from other counties of the State, at the annual Livestock Judging Contest, held at State College during Farmers' Week, in June of next year. Clearfield County stood twelfth last summer at State College. The winning team in this contest was sent to the Eastern State Livestock Exposition at Springfield, Mass., to represent Pennsylvania. Are these trips not worth trying for? Enroll early, and obtain useful information on stock judging. All contestants must send their names to the Superintendent, W. C. Sterrett, County Farm Agent, not later than five days before the contest opens.

Best Equipped Mine. The Britannia colliery, South Wales, is considered by expert mining engineers to be the most modern and best equipped in the world. It is worked solely by electrical power, and is probably the only colliery in the kingdom which does not use horses and does not raise a train of rubbish.

FORMER LOCAL TEACHER NOW BUSINESS MAN

John T. Taylor, a former Clearfield teacher, resigned from the State College faculty to embark in the insurance business in that thriving college town. With Lynn R. Daugherty as a partner, he has taken over the established insurance agency of John L. Holmes. In speaking of the new venture the State College Times says:— Both Mr. Taylor and Mr. Daugherty are well known to the residents of State College. The former has been a member of the faculty in the School of Liberal Arts of the Pennsylvania State College since 1918, and recently resigned his position in the Department of Economics to enter his new activities. For the past three years Mr. Taylor has been in charge of instruction in Advertising and in Fire and Life Insurance and he is well acquainted with these lines of endeavor, both in theory and practice. For some time he has

HOW WOMEN AVOID SURGICAL OPERATIONS

Some Are Extremely Necessary, Others May Not Be

Every Woman Should Give Lydia E. Pinkham's Vegetable Compound a Trial First

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again. As I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. HAYDOCK, 6824 St. Lawrence Ave., Chicago, Ill.

A Vermont woman adds her testimony to the long line of those fortunate women who have been restored to health by Lydia E. Pinkham's Vegetable Compound, after it had been decided an operation was necessary: Burlington, Vt.—"I suffered with female trouble, and had a number of doctors who said that I would never be any better until I had an operation. I was so bad I could hardly walk across the floor and could not do a thing. My sister-in-law induced me to try Lydia E. Pinkham's Vegetable Compound and it certainly has helped me wonderfully. I keep house and do my work. My friends and you may publish my testimonial."—Mrs. H. R. SHARON, Apple Tree Point Farm, Burlington, Vt.

In hospitals are many women who are there for surgical operations, and there is nothing a woman dreads more than the thought of an operation, and the long weary months of recovery and restoration to strength if it is successful. It is very true that female troubles may through neglect reach a stage where an operation is the only resource, but most of the commoner ailments, such as tumors or growths, which are not caused by serious displacements, when distressing ailments first appear take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. In fact, many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

THE RELIABLE

Why Laundering is Making its Greatest Advances in America

Because most of us here in America are accustomed from childhood to every conceivable convenience, we oftentimes accept as quite commonplace much which others think most marvelous.

Can you call to mind, for example, anything seemingly more matter of fact than the bundle of clean clothes we bring weekly to your door?

Yet in less than a dozen of the world's eighty-odd countries is this service to be had at all.

And if opportunities for comparison were available, you would find the contents of your bundle whiter, sweeter, and more sanitary, and the service more satisfactory than is obtainable by any other means.

We are able to give you this service because we, with other modern laundrymen in this country, have the help of the L. N. A.

L. N. A. means Laundryowners' National Association. From this organization in the last quarter-century have largely come those methods which enable us to save clothes for you while we wash them.

What cleansing agents to use, how to wash, rinse, starch, and iron most pleasingly—all this and much more has been worked out for us and for you by this far-visioned institution. You get its service as well as ours when you send us your family bundle. Practically every modern laundryowner in the country is a member of the L. N. A. From its headquarters at LaSalle, Ill., and from its department of research at the Mellon Institute of Pittsburgh, come methods and suggestions which every day help us to save clothes, save time, and save money for you.

Why worry with laundresses and the hard work of home washing when you can have this competent, economical wash day service?

Telephone today and have us call for your family bundle.

A WAY TO CONSERVE CHILDREN

Did you ever stop to think that Clearfield is one of the few towns where there are no "school zone" signs in the streets where schools are located? That a vast majority of drivers know where the schools are is no proof that the signs would not be effective. Once posted they would be an ever present warning, and for all they cost, we should have them.

The Progress dislikes to sermonize, moralize and become a common scold, and yet, its duty to point out whatever lessons we are to learn from street accidents is quite plain, so here goes.

The recording of the first encounter here of the present school year between a youthful scholar and the wheels of an automobile, as told in the columns of this paper, brings forcibly to the attention of both parents and autoists the necessity of the "safety first" movement among school children and autoists alike.

Great railroad systems and factories have found that the principles of "safety first" apply to their organizations with amazing fruitfulness. It would be well to employ them equally so in private life. Now that school has again taken up, and thousands of children in Clearfield daily cross to and fro on street corners and near school yards, automobile drivers should exercise extraordinary vigilance when operating their machines in the neighborhood of school buildings, or crossings frequented by the younger generation.

On the other hand parents should impress it upon their children that playing in the streets, hanging on the tailgates of wagons, and such boyish pranks, are extremely dangerous. They should be instructed, and the instructions should be enforced, to desist from darting suddenly across the street to join playmates on the other side, and last, but assuredly not least, be at all times on the lookout for approaching automobiles when crossing any street, no matter how remote from the congested district.

THE OLD ORDER CHANGETH

The 1921 method of campaigning, except in Pittsburgh and Philadelphia, seems to be a very different proposition from the campaigns some of the older fellows tell us about. It used to be "all in fair in love and war—and politics." Germany found that all wrong as to war. Even in love, the young ladies of today do not care to be won by horse thief methods, and as for politics, the commendable action of Democratic leaders in this county in conceding the right of Miss Gertrude Rumberger to hold the office of County Treasurer for her father's full term, is ample proof that there is going to be more fairness in politics.

The hundreds of representative men who are favorable to Miss Rumberger's candidacy are not influenced by any measure of chivalry or gallantry, but rather are actuated by a spirit of fairness to all concerned.

No woman now interested in politics or who may in the future aspire to office, will seek any favor because of her sex. On the other hand it is ridiculous for any male to discriminate against a woman because of her sex. Some do. One "virtuous" old fellow was heard to exclaim recently, "I hope none of the women of my family become mixed up in the mire of politics," yet one of these women has been living with him for thirty years, and knowing him as we do, we do not doubt for a minute that politics would be a bed of roses compared with his whisky-soaked breath and rum-inspired oaths.

He, happily, is an exception; one of the few survivors of a dark age. We are forced to admit that there are more of his unenlightened and hypocritical ilk in the Republican party than in the Democratic party, else our own party would tender Miss Rumberger an unopposed nomination.

Your vote for Miss Rumberger will help to further change the old order.

When the writer made his first trip to the grocery store to buy coffee, a pound of Arbuckle's cost nine cents. That figure just about represents our opinion of "Fatty" now.

Mixed Radiations.
The radiation of heat and light just above the earth's surface is a mixture of radiations from the sun, the sky and the earth itself. With an Arago actinometer of perfected calibration, J. Vallot, as reported to the French academy, has been able to estimate the relative proportions. In the clear atmosphere of Nice the earth appears to be the source of about 7 per cent of the total radiation; the sky, of about 25 per cent, and the remainder represents the portion coming directly from the sun.

"The Immodest Sex."
Jack London spoke of women as "the immodest sex," and by saying that "men are far more modest than women," he stepped into the heated air of argument, bringing down storms upon his head. But he considered that he had several brazen names to bear him out among Jean Paul's "Love increases man's delicacy, and lessens woman's," and Bernard Shaw's, "If women were as fastidious as men, morally and physically, there would be an end to the race."—Charmian London in the Century Magazine.

What's Holding It Up?

A rich German built this unique summer house on his estate at Koshin. It is so balanced that 40 guests can stand in it to view the surrounding country.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

FIRST TO WIN GOLD MEDAL

Dale Collier of Rock Island, Ill., has the honor of being the first scout to win the new gold medal just designed for the Court of Honor, by Belmont Brown, the explorer. The incident which won the coveted National Scout Medal of Honor for young Collier occurred last January.

The boy had just started on an errand for his mother when he noticed three men walking on the ice on the river. Even as he saw them he perceived to his horror that the ice was breaking beneath them. He ran about 300 yards and found an old boat. There were no oars but he snatched up a piece of board and jumping into the boat broke his way through to where one of the men was sinking. The boy threw him the board and pulled the boat fast filling with water, close to the man, got him into it and back to shore. Then emptying out the boat he set out again in search of the others. This time, not having even the board to help him, he beat his way through the ice downstream with his fists. By this arduous process he finally got to where the other two men were. He managed with much difficulty to get both into the boat, which then began to sink from the weight and having shipped so much water. The men being unconscious, the boy bailed for dear life with his hands, screaming for help. Another boat reached them in time and all were gotten ashore. Not content with his already heroic achievement young Collier worked over the unconscious men trying to induce artificial respiration. He succeeded in the case of one man but the other who was just recovering from an illness never regained consciousness. The story is one of the most striking of the many noteworthy instances of scout pluck and resourcefulness that have passed through the hands of the Court of Honor and Scout Collier well deserves the honor accorded him.

SCOUTS ON THE JOB

Out in Bellingham, Wash., some spectators chuckled with approval over the following incident and reported it to the local papers: A quart bottle of milk had been dropped in the street and lay splattered into a thousand pieces prepared to do their worst to all passing tires. Two lads in khaki "happened along." Instantly their sharp eyes took in the situation. "Boy Scout Safety!" they shouted in unison and swooped down upon the broken bits of glass which in another moment were gathered up and deposited in the proper receptacle. An excellent object lesson this, to all who witnessed the incident and another proof that scouting is doing just what it claims to do—makes responsible citizens.

A small boy pushed accidentally to the ground in a school yard recently suffered a broken leg. Instantly there were boy scouts at hand to take charge.

A G. A. R. VERDICT.

A G. A. R. veteran of Columbus, Ohio, says: "While attending our Grand army encampments for the past few years in many cities of the United States I have come to the conclusion we could not get along without the boy scouts' everwilling help. They are the first persons we meet when we get off the train, to carry our luggage to our stopping place, and if we have no place engaged they will take us to one and see that we are made comfortable. They can beat the police at their own game when it comes to watching a street crossing or keeping the streets clear for parade. They are always on hand with a cool cup of water; in fact, everywhere to do a good deed for somebody. I have learned to love them. I consider the boy scout movements one of the best schools of American education. I say God bless them and the men who contribute their time and money to boost them. Boys, the Grand Army of the Republic are your friends."

SCOUTS DO EMERGENCY WORK.

Boy scouts did noteworthy work after the tornado disaster in the South last spring, working tirelessly for many hours, rendering first aid, searching for the dead, and removing the wreckage. Local papers at the time expressed the greatest admiration for the pluck, energy and endurance of these young citizens pledged to service of others at all times and under all conditions.

VETERAN CORPS ORGANIZED.

Veteran scout associations took up of men who have served at least five years in the movement are now being organized throughout the country. Philadelphia, Baltimore and Chicago have respectively the honor of establishing the first, second and third Veteran Scout corps. Over 130 men have registered already as ten-year service men, and hundreds more are eligible. Here is a roll of honor of which the movement may be justly proud.

Are you going on a visit? Tell your friends through The Progress.

American Legion Notes

"There is not the least doubt in my mind that if it had not been for the determined stand of the American Legion, Zimmer and I would still be in prison," writes Sergeant Neff, who with Sergeant Zimmer was arrested by the Germans following an attempt to capture Grover Cleveland Bergdahl, notorious slacker. "The American Legion came to my aid during one of my darkest hours, and it demonstrated by its unwavering loyalty toward a comrade that its sublime aspirations and lofty ideals concerning comradeship are a living truth."

Men entitled to navy retainer pay and not receiving it should communicate with the navy allotment officer, navy retainer pay section, Navy department, Washington, D. C., according to the American Legion Weekly. Applicants should give the following data: Full name, date of enrollment, rating and class in which enrolled, present address, present rating, number of retainer pay checks received (if any) and amount of each; date of release from active duty, date of discharge from reserves.

One of the largest single cash contributions for the benefit of disabled ex-service men has been received by the St. Louis city central executive committee of the American Legion. The amount was \$5,000, "without a string to it," given by Mrs. Newton L. G. Wilson, wealthy philanthropist of the city. The fund will be used exclusively to assist disabled men in obtaining just compensation and for the relief of their dependents.

American Legion posts in Minnesota are having a lively controversy as to which one has the oldest Legionnaire on its rolls. Redwood Falls presented Dr. Gibson, seventy-two years old, who served with the medical corps at Fort Benjamin Harrison, Ind., and held the record until Kimball post introduced Adam Brower, seventy-six years old, and Joe Mason, who admits eighty-six years and a highly prized membership in the Legion.

As a result of a fight waged on the floor of congress by Representative Hamilton Fish, Jr., of New York, a prominent American Legion worker, relatives of aliens who served in the American army, navy and marine corps during the World war are entitled to preferred right of entry into the United States in the three-per-cent immigration to be allowed during the next year under the Immigration bill.

Members of the American Legion in St. Paul, Minn., cast their bread upon the waters and it was returned a hundredfold. Last spring they gave assistance to a needy man. When the Legion men were selling theater tickets for a benefit performance for unemployed veterans the ex-service man sold 600 tickets in two days. As a result 150 men were sent out on jobs the following day.

A vigorous campaign waged by the American Legion against disloyal activities of the Industrial Workers of the World is responsible for the stabling of a Legion worker by an I. W. W. fanatic, according to reports received at Legion national headquarters from Pocatello, Idaho. True to form, the I. W. W. member attacked the Legion man in a dark alley, stabbing him in the back.

For the prompt relief of disabled and unemployed ex-service men of Chicago, Theodore Roosevelt post of the American Legion staged a stag party, at which Judge K. M. Landis was a guest. Bartling Nelson was in charge of the athletic program; the band of the Great Lakes naval training station provided music and stage stars contributed their services to a midnight frolic.

Commuters and street car fans of New Orleans may have to walk when the American Legion meets. Employees of the New Orleans Railway and Light company have formed a post of the Legion. The street railway men are enthusiastic members of their post and have promised to attend meetings even if they have to bring along their private cars.

An American Legion speaker has been asked to explain the aims and purposes of the organization at the annual labor picnic to be held June 18 at Kansas City, Kan. The action, which followed a conference with the mayor of the city, is intended to clear up any misunderstandings which radical elements may have fostered in the ranks of labor organizations.

Only men who were in the service during the World war will be admitted to a hotel being erected by the Portland, Ore., post of the American Legion. The post is enlarging and remodeling upper floors of its large clubhouse to accommodate 70 men.

Idaho American Legion members opened their state service and membership campaign with prayers in almost every church in the state.

Store window posters and street car signs aided Summit post of the American Legion at Akron, O., during a membership campaign.

Are you entertaining? Tell The Progress, H. & C. 176.

The Symbolic Eagle.
The eagle stood for two things in ancient symbolism. The Greek name for the monarch of the air was a word meaning "rapid motion." The deeply mystic Hebrews, after watching the great bird sitting motionless, contemplating the sun, gave it a name which meant "meditation." In early Christian art the eagle became the symbol of spiritual power, because it was able to soar tirelessly through the highest places. The lion was the symbol of human pride and temporal power.

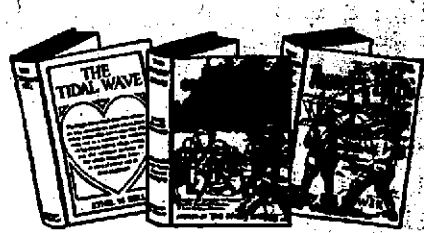

Men Descended from Cats.
John M. Tyler, professor emeritus of biology of Amherst college, has been looking into our beginnings and he thinks that in appearance and structure the cats were much better justified than the apes in aspiring to bipedal pre-eminence, and that on form they should have won the future and made certain the ultimate holding of all meetings of art and learning on the back fence.—St. Louis Post-Dispatch.

Sea Serpent Pure Myth.
There are no sea serpents and armor-plated monsters that rise from ocean's bottom and frighten vacationists. So says the prince of Monaco, one of the world's foremost oceanographers. Forget, also, the prince says, mental pictures of deep-sea forests of lace-like vegetation waving gently as submarine monsters move lightly through it. The depths of the sea are as barren as the tops of mountains. That is why there are no monsters in the depths of the sea; there is nothing there for them to feed on.

England's Jealousy Awakened.
It was not until the close of the fifteenth century that England began to take an active interest in the new world that had been found beyond the Atlantic. Spain led the way, for her sailors, under the Italian Columbus, had discovered the continent, but England was unwilling that Spain should reap all the glory and all the profit; and in 1487 King Henry VII fitted out an expedition for exploration beyond the sea.

ONE BRAND- ONE QUALITY- One Size Package

All our skill, facilities, and lifelong knowledge of the finest tobaccos are concentrated on this one cigarette—CAMEL.

Into this ONE BRAND, we put the utmost quality. Nothing is too good for Camels. They are as good as it's possible to make a cigarette.

Camel QUALITY is always maintained at the same high, exclusive standard. You can always depend on the same mellow-mild refreshing smoothness—the taste and rich flavor of choicest tobaccos—and entire freedom from cigarette aftertaste.

And remember this! Camels come in one size package only—20 cigarettes—just the right size to make the greatest saving in production and packing. This saving goes straight into Camel Quality. That's one reason why you can get Camel Quality at so moderate a price.

Here's another. We put no useless frills on the Camel package. No "extra wrappers!" Nothing just for show!

Such things do not improve the smoke any more than premiums or coupons. And their added cost must go onto the price or come out of the quality.

One thing, and only one, is responsible for Camels great and growing popularity—that is CAMEL QUALITY.

Vagaries of Lightning.

The keynote of it all, in the opinion
of the experts, seems to be that in the
comings and goings of lightning man
plays a small part. Many of the pre-
cautions which it has become a habit
to take are born of blind instinct,
that sees safety in obvious things,
where there is really no safety at all.
But from the vagueness of expert
opinion a few generalities emerge,
which offer some consolation as being
the best possible under the conditions.

Crude Methods of Defence.

Pueblo Indians were never warriors,
but in the old days they were subject
to frequent attacks by the wandering
tribes, such as the Apaches and the
Navajos. Therefore many of the crude
adobe houses were built with por-
ticles up near the roof, which the oc-
cupants used to defend themselves
from the attackers. Many of these
old houses are still standing, and por-
ticles are still there, just as they were
years and years ago. Of course they
are all occupied, for no new houses
are built unless there is an absolute
necessity for them.

Boxing Gloves on Fighting Cocks.

An English farmer was recently
baled into court and fined on the
charge of keeping a place for the
purpose of cock fighting, but he made
the defense that the sport as indulged
in at his place was not an offense
within the law, as the birds fought
with boxing gloves instead of spurs.

Wives Placed in Pawn.

A report received at The Post, Man-
toba, from the North states that an
Eskimo trapper en route to a trading
post to sell his furs, disposed of four
of his wives, each for a pound of tea
and some tobacco. The purchasers
were fellow-trappers returning from
the Brochette post of the Hudson's
Bay company, heavily laden with sup-
plies. As it is the custom of the Es-
kimo, the original owner may redeem
his wives upon payment of double the
purchase price.

Famous Theatrical "Fake."

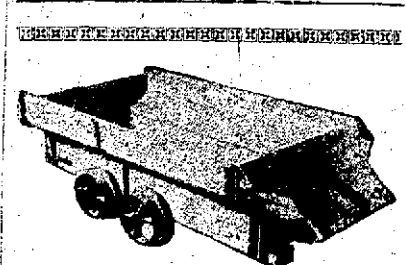

A seventeen-year-old boy success-
fully "faked" a Shakespeare play. He
was William H. Ireland, who lived in
London about a century ago. Young
Ireland tore the fly leaves from old
books, concocted an ink that looked
faded, and forged Shakespeare's signa-
ture to a play that he wrote to fool
his father. The play was actually
presented by the great actor, Kemble,
and would have continued on its own
merits had not the tragedian "horsed"
the lines, which he believed bogus.
Boswell, Johnson's biographer, was
one of the literary men that "fell for"
the fraud.

Birds Keep Nests a Mystery.

The biological survey says that
there are a few birds seen in this
country, the nests and eggs of which
no one has been able to locate. The
two best known of these are the King
goose and wandering bet.

Bobbie's Preference.

Bobbie's mother had a terrible time
trying to keep a satisfactory nurse for
her small son. It was quite necessary
that she have one, as she was a young
author rapidly acquiring recognition
throughout the country. One day when
the nurse failed to come and Bobbie
saw how perturbed his mother was
over the situation, he went up to her,
put his arms around her, and said:
"Mum, I wish you would play with
me and hire a nurse to write your
books."

NURSE ENDORSES FAMOUS NERV-WORTH

Says That It Does All That Is Claim-
ed For It, Quiets the Nerves, Aids
Digestion, and Produces Restful
Sleep.

"I recommend Nerv-Worth because
of the fact that it certainly does bene-
fit me when I become nervous and
tired out after a long term of nurs-
ing." Thus wrote Claire Childers, a
Parkersburg, W. Va. nurse some time
ago, and she continued, "In my busi-
ness it becomes necessary to lose lots
of sleep, and requires many hours of
constant watching, which wears on
the nerves. Nerv-Worth does all that
you claim for it. It quiets the nerves,
aids digestion, and produces restful
sleep." The above is an endorsement
from a woman whose profession con-
stantly throws her in contact with

druggists and their uses, and various
kinds of sickness. A nurse does not
recommend anything that is not good,
and their professional knowledge
makes their recommendation worth
while. Nothing needs to be added to
the above statement, as it tells fully
what Nerv-Worth does. If you suf-
fer from nervousness, sleeplessness,
stomach trouble or their attending illa-
give this famous preparation a trial,
and if your first trial bottle does not
prove that it is helping you, your
money will be refunded. You will fin-
ally come to Nerv-Worth for real re-
sults, so why not start now? Be sure
to get the genuine Nerv-Worth in the
large, round bottle. Price \$1.00 plus
war tax. Sold by Stewart Drug Co.
and all leading druggists everywhere.

In one year Gloria Swanson has risen from an obscure place in film
down to rank with the most popular of the stars. Her first starring pic-
ture was "The Great Moment" by Elinor Glyn. She has an important
role in Cecil De Mille's all-star production of "The Affairs of Anatol."

NEWS OF OUR NEIGHBORS

CURWENSVILLE

The town of Grampian was the scene of a fire early yesterday morning, the dwelling house and entire contents belonging to Chas. Damer being burned. When the flames were discovered the building was doomed. The cause of the fire is unknown as none of the family were at home at the time. The loss will reach \$2,000. A small insurance was carried on the house and contents.

Mr. and Mrs. John Pifer left yesterday noon via B. R. & P. for Brookville where they will spend the next few days visiting the fair.

Terry Gleason, candidate for Sheriff on Democratic ticket from DuBois, was in town yesterday.

George Kittleberger, Sr., who has been ill for some months past was able to go to Altoona on Monday where he is visiting for the week. He is improving very slowly in health.

Frosts were noticeable in this section and especially on the Ridges Tuesday and Wednesday morning, but was not sufficiently severe to injure the uncut corn.

Mr. John W. Sykes lately appointed superintendent of Summit Sole Leather Tannery here, is preparing to remove his family from Roaring Branch to Curwensville.

The Board of Health officers are going after all persons who are allowing decayed vegetation to accumulate around their properties. If there is no other way to have it removed the law will be invoked as an incentive.

Yesterday was "Good Roads" day among the members of the Greenwood Hunting Lodge men out on the mountains. A number of members and their families went out to their possessions and while the males worked on road improvement the ladies cooked an elegant dinner and supper for their tired husbands. After the evening luncheon had been eaten and the dishes put in their proper place, the balance of the time, before returning home, was spent in card games and various other amusements.

WOODLAND

Mr. and Mrs. Russel Cole and son spent the week end visiting relatives at Woodland.

Harry Regal and Walter Daughenbaugh and James Stiner motored to Howard to spend the week end and arrived home Sunday night.

Mr. and Mrs. James Stiner of Woodland spent Monday afternoon at the home of Mr. and Mrs. Thomas Stiner at Leontes Mills.

Mr. and Mrs. Fred Shuggers, of Clearfield spent Saturday with relatives here.

William Kugler, a former Woodland boy, who is said to have been riding the brim billows of the Great Lakes, is visiting his parents here. Glad to see you Bill.

The rain on Saturday which was so heavy in the vicinity of Clearfield, was not so bad here and no damage was done excepting that the road near Paul Shirey's shop was badly flooded.

Mrs. M. A. Forcey son and daughter, of Philipsburg, spent Sunday with relatives here.

Paul Albert, a former Woodland boy, son of the late Ellsworth Albert whose home is in DuBois and who is attending courts this week, spent Tuesday evening with relatives here.

The Boy Scouts met on Tuesday as usual. The troops now have two patrols of 8 members each and two chief scouts. Fourteen passed the Tenderfoot Test. Mr. Cook of the Y. M. C. A. and Mr. Davey, Scout Master and Rev. McCurdy attended the meeting.

On Friday at 2 p. m. Woodland Baseball team will play the Mountaintop team for the championship of

THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

TEN THOUSAND ATTEND POULTRY DEMONSTRATION

So far this summer the poultry specialists of the Pennsylvania State College extension division have conducted over 400 culling demonstrations, according to County Agent Sterrett. More than 10,000 people have attended these meetings held on farms and poultry plants in almost every county in the state.

On 75 per cent of the farms visited, under-fed poultry was found with egg production very low. Where birds were properly fed production was well over 50 per cent.

Balanced rations for hens is a very important point in production. The ration must contain about ten per cent of either meat scrap or tankage. If a flock of hens eat ten pounds of mash and grain a day, one pound should be meat scrap or tankage. This is most easily accomplished by feeding a mash containing 20 per cent meat scrap and making the hens consume equal parts by weight, of scratch grain and mash.

During the next two weeks peach growers of Clearfield County will do well to rid their trees of peach borers by using the latest control method, better known as the "gas attack" with paradichlorobenzene, says County Agent Sterrett. Pennsylvania State College extension entomologists have cooperated with various growers and found the chemical almost 100 per cent efficient for the destruction of the pests. The method of control is very simple, is easily done and costs only a few cents per tree.

For trees six years and older, treatments are made preferably about September 10 to 30. In the southern counties applications as late as October 15 will be more efficient. Trees three to five years old can be safely treated if the chemical is removed within fourteen days. A half to three-fourths ounce is all that is needed for each tree. The county agent can tell where the material can be secured and how it is base of the tree.

PLAN BIG POULTRY TOUR TO NEW JERSEY

County Agent Sterrett has announced that he is requested to ask all poultrymen of Clearfield County to join in a big auto tour of the most attractive hatcheries and flocks in New Jersey on October 3 and 4. The tour will be guided by the poultry extension specialists of the Pennsylvania State College and the new Jersey State College. Farmers will gather at the Farm Bureau office on October 2nd and motor to Stroudsburg, Pa., where the tour will start the following morning. Poultry plants of interest will be visited around Stockton, Huntingdon County, and several of the larger flocks near Lambertville, and some in Mercer County, spending the night in Trenton. The second day will be spent in the Vineland district, visiting the egg laying contest and a few immense plants there. All who desire to go should get in touch with County Agent Sterrett, who will see that reservations are

CERTIFIED SEED POTATOES DO WELL

Empire State Has Large Acreage Under Inspection. Crop Looks Good.

The adverse growing conditions this season have given Certified Seed Potatoes a chance to show their real superiority. Last season, the average yield per acre of New York potatoes was 109.6 bushels according to the United States Bureau of Crop Estimates. The 766 acres of certified fields yielded an average of 247 bushels per acre. This means that the certified fields yielded twice as well as the average of the state. Yet because of the very favorable season quite inferior seed produced good crops. This season, the fields planted with New York Certified Seed promise to give nearly a normal yield while fields planted with inferior seed have resulted in many crop failures and uniformly poor standards.

COUNTY AGENT ADVISES ON POTATO BLIGHT

"What shall I do if my potatoes have been attacked by the late blight?" This is a question that faces many farmers right now. According to information received from E. L. Nixon, extensive plant pathologist at the Pennsylvania State College, County Agent Sterrett expresses the belief that the best thing to do is to leave the potatoes in the ground until the rot has run its course. The late blight is now epidemic through New York, Western Pennsylvania and the mountain counties. If heavy rains do not fall before time to dig the blighted potatoes, the damage will not be so great for rain washes the spores down into the soil and they reach the tubers, causing rot. The best procedure is to hold off digging until the driest weather conditions are available, and the vines are thoroughly dead. An application of Bordeaux even with the vines three-fourths dead will prevent an enormous amount of rot. Do not store blighted potatoes in large piles or to a great depth in bins, as it will cause it to spread.

SING AT DRIGGS THEATRE MONDAY

Edwin Grey, the young tenor who is being presented at the Driggs theatre September 19th, by Charles Beahan, has had a remarkable career. He is literally "a brand snatched from the burning." Last winter he was attending Princeton University, and studying under David Bispham; when Charles Beahan persuaded him to enter the concert field under his management. Since then the young tenor has been phenomenally successful, culminating in an engagement with the Ziegfeld Midnight Frolic, which opens in October. He has also been placed under contract by the Edison people, who have call of his exclusive services in the making of records. When one analyzes Grey's success, one finds it summed up in just four words—voice, artistry, diction, musicalship, and—Edwin Grey, himself a personality of irresistible magnetism.

DNT MISS THE FIREMEN'S FROLIC MONDAY AND WEDNESDAY

If you enjoy good clean comedy, excellent music, pretty costumes, etc you cannot afford to miss the big Minstrel and Musical Comedy which will be presented at Driggs Theatre next Tuesday and Wednesday evenings, under the auspices of Clearfield Fire Co., No. 1. Direction of C. A. Woodin, of N. Y. Th first part is a clever, snappy Minstrel by itself, with fifty of Clearfield's young ladies and gentlemen taking part. And with "Red" Stauffer and "Jimmie" Allen as the premier End Men, a "sure cure for the blues" is in store for all. The Keystone Quartette being another feature. Part Two "The Gingham Girl" is a one act Musical Comedy, entirely different from the many second parts that usually hold forth in a Minstrel show. This is a clean rural Musical Comedy, plenty of fun, singing and dancing chorus. The musical numbers used in this production are all new.

High Class Vaudeville during intermission. Special Orchestra. Tick ets are now being sold by members of Fire Co., No. 1 and their friends. Turn out and help the Firemen. Derved seat sale opens Monday morning at Driggs Theatre at 9. a. m. Program will be announced in this paper shortly.

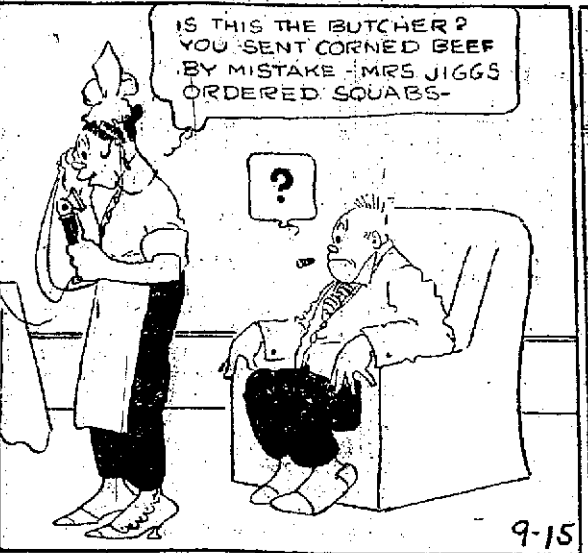

STOLEN—The parties who stole the two bicycles from back of Leonardson's store Tuesday night, were seen with them and known and will save themselves trouble and costs by returning same at once. Will give you until this evening to return them Leonardson's Delivery Boys

UNCLE TOM HERE TONIGHT
If all the good things said of William H. Kibble's "Uncle Tom's Cabin" company, by the press of other cities are true, and we have no doubt they are, the Driggs Theatre tonight will have an attraction that will draw universal patronage. In point of size and equipment the William H. Kibble company is said to be one of stageland's biggest offerings.

Miriam Cooper is the heroine of "Serenade," a new movie. And the hero who makes love to her is George Walsh, in real life her brother-in-law. Raoul Walsh, her husband, directed the picture. Quite a family affair!

Former Pastor Now Heads Seminary

The Progress learns that Rev. John W. Long, former pastor of the West Side M. E. church has been elected President of Dickinson Seminary at Williamsport to succeed Dr. B. C. Conners who died recently. Dickinson Seminary is one of the substantial educational institutions of this state and in Rev. Long it will have a head who will work with great earnestness and zeal. Dr. Long was eminently successful during his pastorate here and even more so at State College where he has been since.

A legion of friends here, both in and out of the church of which he was pastor, will be glad to hear of this opportunity given a worthy man to bring all his talents and faculties into full play.

Traffic Cop Amazes Amir.
Of all the sights he saw on his recent visit to London the amir of Katsina declared the crossing policeman to be the most wonderful. To be able to stop all the traffic of a street with the lifting of one hand amazed him, and he thinks, he told an inquirer, that the policeman must have four eyes.

Miss Pearl Rafferty of Curwensville who was operated on Tuesday at the Clearfield hospital, is getting along nicely.

Henry Lehman, movie producer and fiance of Virginia Rappe, actress who died in a San Francisco hospital following a booze party in the rooms of Roscoe (Patty) Arbuckle at a San Francisco hotel. Lehman demands that Arbuckle be punished.

Worth Remembering.
The joy unshared loses half its sweetness, and the grief borne alone doubles its bitterness. We were not meant for solitude but for sharing, and when we are enjoined to love our neighbor, it is for self-preservation as well as for helpfulness.

and kept in order. If the will is placed in the hands of a small child which he carries in his mouth. The curse that rests on grave diggers is a curse probably comes from the fact that most of the men of this trade have no scruples about digging the poor wretches up for their coins. It is believed that this causes the spirits of the disturbed ones to return to this world to suffer all the ills that the Burman imagination can conjure up for them.

Docility of Human Race.
Nothing appears more surprising to those who consider human affairs with a philosophical eye than the easiness with which the many are governed by the few.—Hume.

Women Dance With Arms.
The South Sea island women sit down to dance and just wave their arms.

Jewelry That
Carries True
Distinction

There's a true distinction to the jewelry that you may select here to adorn your person and you'll find that there's a refinement to it that will appeal to you from the very minute you see it. Little things such as you want to use and yet do not wish them to be obtrusive, may be found here and you should, by all means, come and look them over.

Invisible Ink.
Ordinary ink—better still is buttermilk—makes a good invisible ink. Write with a clean new pen on unglazed paper; to read from the paper with a hot flat iron. Another invisible ink may be made from linseed oil, 1 part, liquid ammonia 20 parts, water 100 parts; shake the mixture well before using; to render the writing visible dip the paper into water; the characters will disappear again when the paper dries.

Your friends will be glad to know you are back home. Telephone The Progress H. & C. 176.

TOO LATE

Death only a matter of short time. Don't wait until pains and aches become incurable diseases. Avoid painful consequences by taking

**GOLD MEDAL

Mr. and Mrs. Clair Dufford left Sunday by automobile for Starksville, Miss., where Mr. Dufford will teach. They were accompanied as far as Cincinnati by Miss Gussie Mapes who will enter Ohio Wesleyan University.

Cyclopedia or Encyclopedia.
The word "cyclopedia" is the name of a work giving usually under its terms arranged in alphabetical order, a summary of some single branch of knowledge, as a cyclopedia of music. Sometimes the word is used in a wider sense for the word "encyclopedia," which is the name of a work containing information on all subjects or exhaustive of one subject, arranged in systematic order.

The KITCHEN CABINET

(© 1921, Western Newspaper Union.)
Half the world is on the wrong scent in pursuit of happiness. They think it consists in having and getting and in being served by others. It consists in giving and in serving of. —Henry Drummond.

FOODS FOR THE CHILDREN.

For desserts grapes used in place of nuts or even in salads makes a desirable substitute that will not hurt children.

Our best authorities upon dietaries for children tell us that cereals should never be sugared, but use dates, figs, prunes and such dried fruits, cooked with the cereal. They furnish the sugar need and are more wholesome. The seeds of the figs, the woody fiber of the date and prune add bulk to food and help to keep the bowels active. A child who is well nourished with good fruit, dried or fresh, will not so often crave candy.

Cornstarch pudding made with egg and milk with a little sugar to sweeten, served with cream and sugar, with cubes of jelly for a garnish, with half of a peach or pear served on top of the pudding.

Cocoa made entirely of milk will often be taken when milk will be refused. Bread puddings made with egg, milk, a few dates, figs or raisins and served with cream.

Plain sponge cake unfrosted. Milk toast with a white sauce made of cream or milk, thickened or not. The more one can add to milk in food and butter, the more the food value is increased.

Graham crackers buttered and put together as sandwiches. Graham crackers dotted with marshmallows and baked until they puff makes a safe confection or one that takes the place of candy.

Desserts suitable for growing children never include pastry of any kind, or rich cakes or puddings. Fruits, fresh and cooked, with cake, custards, tapioca, with fruit, gelatin dishes, ice cream, water ices and other simple combinations are permissible.

Sometimes the most wholesome of foods disagree; each child should be studied as a special problem and watched from day to day. Anything which retards growth leaves a weak link which may not appear until later life.

Nellie Maxwell

The KITCHEN CABINET

He that has character, need have no fear of his condition. Character will draw condition after it. —H. W. Beecher.

NICE DESSERTS.

Desserts which are easy to make, good to eat, pretty to look at and not expensive are very popular. Among these you will find some.

Graham Pudding.—Take one cupful of each of molasses and sweet milk, two cupfuls of graham flour, one cupful of slightly chopped raisins, a little salt, two teaspoonfuls of soda dissolved in a little warm water; mix and beat well and steam for two hours. Serve with the following sauce: One well-beaten egg, one cupful of powdered sugar, one cupful of whipped cream, one teaspoonful of vanilla.

Grapefruit Pudding.—Pour three and one-fourth cupfuls of boiling water over two cupfuls of grapefruit, then set aside to cool. Beat the yolks of two eggs with three-fourths of a cupful of cinnamon, cloves and nutmeg; then add two cupfuls of nutmegs, one-half cupful of raisins and the same of dates, with a generous pinch of salt. Mix this with the grapefruit and fold in the stiffly-beaten whites. Bake in a moderate oven for 25 minutes or steam one hour. Serve with a lemon sauce or with whipped cream.

Tailby Cream.—Take one-pound box of marshmallows, one can of pineapple, one cupful of whipping cream. Cut the marshmallows into quarters and let them soak in some of the cream and pineapple juice. Cut the pineapple into small bits and drain. Beat the cream and when stiff stir in the drained marshmallows and pineapple, then add chopped walnuts or blanched almonds and cherries. Serve in sherbet cups and garnish the top with a maraschino cherry.

Damson Pudding.—Take one cupful of sugar, one-half cupful of butter, one cupful of flour, one cupful of damson preserves, three eggs, one teaspoonful of soda dissolved in three tablespoonfuls of sour milk. Mix well and bake. Serve with a sauce prepared as follows: One cupful of sugar, one pint of milk, two tablespoonfuls of cornstarch, one teaspoonful of vanilla, the whites of two eggs. Mix and cook all except the eggs for ten minutes, then fold in the beaten whites; flavor with vanilla and serve.

The Harvest Moon.
The harvest moon is the one nearest to the 21st of September, harvest time. When nearly full it rises for several consecutive nights at about the same hour. A poetical playwright points out that it is a kindly wanderer of lovers. There is at that time a small angle between the moon's orbit and the horizon which causes this complaisance on the part of the queen of the night.
